## Summary

---

**Flutter developer** with **2 years** of experience in Mobile Development with knowledge of **native android**. Developed multiple apps available for Android, iOS and web apps made with Flutter.

## Experience

---

### TILDE Technology

Oct 2024 – Now

Flutter Developer

Hybrid - Full Time

- Developed a mobile app for Wonder Travel B2B platform, making it easy to collect money from travel agencies.
- Reported critical security issues in the application, including the exposure of sensitive keys and fake location.
- Actively participated in Agile sprints (daily scrums, planning, reviews, and retrospectives)
- Conducted investigations into advanced features such as live tracking, Google Maps navigation and POS bluetooth integration.

### Unlimited Software

Apr 2024 – Oct 2024

Flutter Developer

Hybrid - Full Time

- Spearheaded Nageeb, a cross-platform educational application tailored for the Qatari market.
- Maintained the legacy code on Kiddows and fixed critical performance issues in the gallery section.

### Roqay

Jul 2023 – Sep 2023

Flutter Developer Intern

Remote - Full Time

- Collaborated with a team of Flutter interns to design and implement the Deraya application, which was recognized as the best project among our peers during the internship.

## Projects

---

### Money Collector POS | Flutter (Android)

- [Internal Use](#)
- Facilitating payment collection from travel agencies for NDC Travel Platform. The app supports POS **Bluetooth** devices for receipt printing. Implemented the whole app and took the initiative to fix critical design issues.

### Nageeb | Flutter (Android, IOS)

-  [Play Store Link](#)  [App Store Link](#)
- Spearheaded Nageeb app, a cross-platform educational application tailored for the **Qatari** market. The app garnered positive feedback, reflecting its robust performance and user satisfaction.

### Kiddows | Flutter (Android, IOS)

-  [Play Store Link](#)  [App Store Link](#)
- Maintained the legacy code on Kiddows app, **fixed** numerous bugs, and improved the performance by 80%, which contributed to a 30% increase in our customer base.

### Tree Website | Flutter (Web)

-  [Web Link](#)
- participated in building TREE student activity's website. Resolved issues related to scrolling and animations.

### My Portfolio | Flutter (Web)

-  [Web Link](#)
- Designed and developed a portfolio website that showcases my skills and projects.

## Technical Skills

---

**Languages:** Dart

**Tools:** Flutter, Firebase, DevTools, Github, Fastlane

**Concepts:** Agile (Scrum), MVVM, Rest APIs & Web Sockets, Cache, Database, State Management (Cubit - Provider), Clean Architecture

Education

---

Cairo UniversityJune 2024

Bachelor of Computer Science (Very Good with Honors)

- **Relevant Coursework:** Data Structures and Algorithms (C++), OOP, Web Development, Database, Advanced Software Engineering, Math, Networks, Graphics, Compilers, Natural Language Processing, Machine Learning.

Volunteering Experience

---

TREEFeb 2024 – Aug 2024

Flutter Developer & Instructor

Google Developer Student ClubOct 2023 – Jun 2023

Flutter Community Member

Courses

---

The Flutter Development Bootcamp by Angela Yu.  
Flutter Advanced Course: Bloc and MVVM Pattern by Tharwat Samy.  
Flutter Clean Architecture (In Arabic) by Usama Elgendy.  
ITI .NET Web Development Training Course.

Achievements

---

**Best Member** in TREE student activity as a flutter developer & instructor  
**Top 10%** in The Egyptian Collegiate Programming Contest, Summer 2022  
**First Place** in Na3ml Hackathon as a flutter intern.

Languages

---

**Arabic:** Native      **English:** Professional working proficiency
